

# Skates Deterrent

Bullet Head

Stainless Skate Deterrent

The Bullet Head Stainless Skate Deterrent is made from one-piece 316 Marine Grade Stainless Steel to prevent rust and surface corrosion. The 35mm long x 11mm diameter stem ensures a strong anchor into stone, concrete, paver and timber surfaces when fixed with a construction bonding epoxy.

Suitable for use to edges of planters, street furniture, concrete protection edges with recommended spacings of 500mm.
