

# IBB121

## Tredfx Instep Series

Aluminium Safety Stair Nosing for Rebated Applications

## Product Data Sheet

- Ribbed polymer insert
- Square back
- Square front
- Pre-drilled and countersunk

The Tredfx Instep series has been developed to meet the growing demand for modern low-profile stair nosings. Unobtrusive yet still sufficiently visible to fulfil its purpose, Tredfx Instep plays its role well. This range is designed to be rebated into the substrate so that the nosing is level with the surface of the stair. Tiles, rubber or carpet can also be butted up to the nosing to achieve the same streamlined appearance. All profiles can be used internally or externally.

## Specification Guide

Install Tredfx Instep IBB121 safety stair nosings, (insert aluminium colour) anodised aluminium with slip-resistant inserts, colour (insert colour), to stairs as required in accordance with manufacturer's recommendations and the requirements of NZS 4121 and AS/NZS 1428.4.1-2009.
