

Stair Armour

Stair protector for concrete applications

Stair Armour square nosing is designed to provide high impact protection to stair treads and nosing in both domestic and commercial buildings. Manufactured from hardwearing PVC with a distinctive ridged finish, Stair Armour provides excellent slip resistance, a safety feature which can be crucial when working on and trying to protect stairs.

Securely fixes to stairs by pinning or taping in place, this reusable stair protection offers a cost effective solution to stair tread protection which is a better alternative to expensive repairs or replacements that can add to the cost of a project.

Size

Each unit is 760mm x 185mm with a 2mm thickness.

Types & Applications

- Quick Application - Simply push into place and secure with adhesive tape
- Anti-Slip - Special "ribbed" profile provides extra grip and minimises the risk of slips
- Impact Protection - Hard wearing 3mm thick PVC provides excellent protection from impact
