

TacStrip

Tactile Indicator
Polyurethane Warning Bladed Shaft Indicators

The TacStud Polyurethane Warning Tactile Studs are made from hard wearing thermo polyurethane material with added UV stabilizers and have been designed for safety and dignity, while providing superior durability in all substrates.

The retrofit design fixed by engineered shafts for friction fitting into concrete and clay pavers has meant the TacStud Bladed Shaft has proven its design and specifications in many harsh conditions and high foot traffic environments.

Standards

The TacStud Polyurethane Warning Bladed Shaft Indicators comply and exceed the requirements of:

AS/NZS 1428.4.1:2009

NZTA RTS14

NZS 4121:2001

AS/NZS 3661.1.1993

AS/NZS 4586:2004

Types & Applications

THISS60010 – 600mm strip with 12 Warning Indicators x 10mm Bladed Shaft strip friction fitted into a 2mm wide x 14mm deep saw cut. This install method in small pavers eliminates breaking/cracking of paver edges from the drill and install method.

Features

- Excellent Anti-Slip Rating
- Easy retro fit install for small paver substrates
- UV stable thermos polyurethane
- Superb abrasion qualities

Tactile Colours: Yellow, Black, Grey, White, Green, Blue, Terracotta, Beige, Charcoal

Other colours available on request.
